

Product Data Sheet

Delta Ultra Fix Plug

DMS051

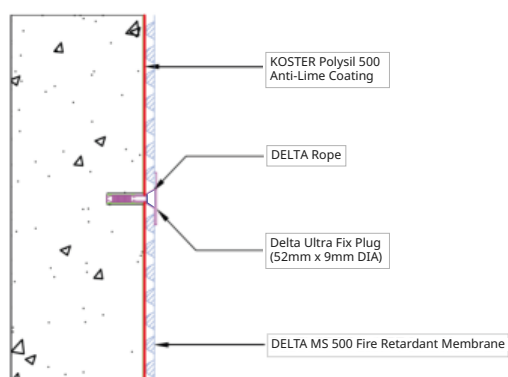

Delta Ultra Fix plugs are specifically designed to fix and secure our Delta MS 500 Fire Retardant Membrane. Delta Ultra Fix plugs offer a tailor-made maximum hold for ease of installation.

Delta's new innovative fire-retardant MS 500 membrane gives a unique opportunity to the structural waterproofing sector for Type C systems to be used in reducing the spread of fire or where installation has not previously been possible for fire safety reasons.
