# Water-retaining drainage sheet with an integrated geotextile for perfect green roofs.

Innovative octagonal dimples for outstanding compressive strength. One sheet for drainage, water storage, and filtration. Easy and quick to lay out straight from the roll.

Floraxx Top is the optimum solution for flat roofs which are to be extensively planted with greenery that does not need much care. This sheet amalgamates the functions of filtration, water storage, and high-performance drainage! Its octagonal dimples additionally reinforced by ribs make it unusually compression-resistant, so that it will sustain even heavy loads safely. It provides an extremely serviceable and economical foundation

Product Code: DMS205

#### **BENEFITS**

- Acting as a protection, filtration, and seepage layer, it retains 7L of water per m<sup>2</sup> within its thickness of 20mm.
- Thanks to its robust octagonal dimples additionally reinforced by ribs, the sheet will safely support even heavy loads.
- As the filtration layer is fused to the top of the sheet and does not need to be laid our separately, the substrate for planting may be spread directly on the sheet that prevents water from accumulating.

#### **SPECIFICATION**

· NBS Specification J40 295A flexible sheet tanking/damp proofing

#### ASSOCIATED PRODUCTS

- NP Drain
- · Geo-Drain Quattro
